

The Honorable Michael K. Powell
Chairman
Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20554

Dear Chairman Powell:

I am writing to you today as a current satellite TV subscriber who would like to add my voice of support to the pending merger of EchoStar and DIRECTV .. The combination of these two satellite providers will provide numerous benefits to consumers like me, including more choices in channels, programming, broadband and new television technologies.

By merging, the combined company will be a much stronger competitor to cable television and can offer more programming choices and, most importantly, all local TV channels in every market in the U.S. By providing local TV channels everywhere, this merger will make satellite television a strong alternative to cable in our community. Throughout the country, people will now be able to turn to satellite TV to access their local news, weather and community information, in addition to a comprehensive package of national video programming. But just as exciting, the merger will bring the availability of affordable high-speed Internet service by satellite to over 40 million Americans who don't have high-speed Internet access. These tremendous benefits to consumers won't happen without the merger. Satellite-delivered Internet service will bring an affordable and competitive alternative to cable modems and DSL to consumers in big cities, small towns and rural areas alike. This will give me a competitive choice for Internet access and will be especially advantageous to rural communities where cable modems and DSL are not likely to be available anytime in the near future.

In the interest of improving our access to competitive television and Internet service, I urge you to lend your support to this merger.

We use to pay an extra \$6/month for local channels through St. Louis, Missouri. Recently we found out that our waiver is no longer valid wherein we lose CBS and NBC. Also, we can only get ABC and FOX through Dallas which is quite a long way from us. Where is the justice in this??? We can get CBS and NBC through regular TV but the reception is not clear even with a separate antenna. Why should we have to put up with this?

I realize that in the wake of our September 11 tragedy that this is a mere drop in the ocean compared to everyone's problems...but why should we have to fight so hard for something like this? Especially when we are being charged extra for it. It's not like they are giving it away for FREE!

If this merger, at the very least, helps us get ABC, NBC, CBS, FOX again through St. Louis, Missouri or Springfield, Missouri I am all for it! Not to mention if there is a price cut?!

Thank you for any help that you can lend in this matter.

Sincerely,

Cherie Smetana

Sincerely,

Cherie Smetana
